

DEMOCRATS HOLD CONVENTION HERE

Judicial Delegates Nominate O. O. Swails For Judge and John Underwood For Prosecutor.

"UNIT" PLAN WAS AGREED UPON

Little Enthusiasm Was Shown and Politicians Say That It Indicated Harmony.

The democratic judicial convention of the Jackson-Lawrence circuit for the purpose of nominating a judge and prosecuting attorney, was held in this city this morning. The convention was called simply to comply with the formalities as it was arranged sometime ago that Oren O. Swails should be the democratic nominee for judge and John Underwood of Bedford the candidate for prosecutor.

The convention was held in the council chamber in the city building and was called to order by Ross Robertson who was also chosen permanent chairman, and C. P. Butler, editor of the Bedford Democrat, and J. Newt Gibson, editor of the Seymour Democrat, were elected secretaries.

The majority of the eighteen delegates from this county were present and those who were not there were represented by alternates. Several of the democratic politicians from Lawrence county were also present at the meeting.

According to an agreement reached before the democratic primaries, Jackson county was to be given the judge, and Lawrence county the prosecutor. It was agreed that the man winning in the primaries should be nominated at the judicial convention under what is known as the unit rule. This plan was carried out and when C. W. Burkart presented the name of Oren O. Swails before the convention, he was nominated without opposition. F. W. Wesner presented the name of John Underwood as prosecuting attorney, and he was also nominated unanimously.

After the candidates were nominated they made short speeches predicting, of course, democratic victory from the president down to the town constable.

The convention was conducted very quietly and there was practically no demonstration of any kind. The local democratic politicians declare that the lack of enthusiasm indicated a harmonious session rather than a lack of interest.

Among the democrats from Bedford who attended the convention were: Mayor Allen Field, Bob Miller, member of school board, John Underwood, candidate for prosecutor, Tom Underwood, John Cattman, J. M. Bale and Charles Butler, editor of the Bedford Democrat.

Some of the Lawrence county politicians were asked who they favored for democratic candidate for president, and it seems that among the leaders there is a division of opinion as to who would make the strongest candidate. Some of them strongly endorsed Woodrow Wilson, while others supported Champ Clark. When the name of William Jennings Bryan was mentioned to them, however, their faces beamed with delight, which seemed to indicate that his nomination would meet the general approval.

They had very little to say about Governor Thomas Marshall as a presidential possibility, and it appears that his candidacy is not being considered very seriously in that county. Others were spoken of, but Clark, Bryan and Wilson seemed to be the most popular among the score of democrats who have been mentioned for the place.

NEARING COMPLETION

Seymour National Bank Will Get Into New Home About July 1.

The new home of the Seymour National Bank at the corner of Chestnut street and St. Louis avenue is nearing completion, and the bank expects to conduct its business from this location shortly after July 1. The work has been delayed somewhat by the plastering drying so slowly but the decorators, Loertz & Smith, are now at work and will finish their contract in a short time. The interior decoration will be in oil with gold trimmings and the effect is most pleasing.

The fixtures arrived this morning and will be installed as soon as the decorating is finished. All the desks and other furniture will be in mahogany. The bank, when completed, will be one of the most up-to-date homes of any institution of its kind in southern Indiana.

NEW RATES IN EFFECT

Express Companies Adopt Lower Schedule For Intra-state Business.

The express companies in Seymour received notice Saturday that the new schedule of rates became effective on that day and hereafter charges for all shipments will be made accordingly. The order makes a change in the rates and the graduating scale and will mean much to the shippers. Such a schedule was announced several weeks ago, but before it went into effect was withdrawn upon the order of the state commerce commission. Since that time, however, the changes have been passed upon by that body.

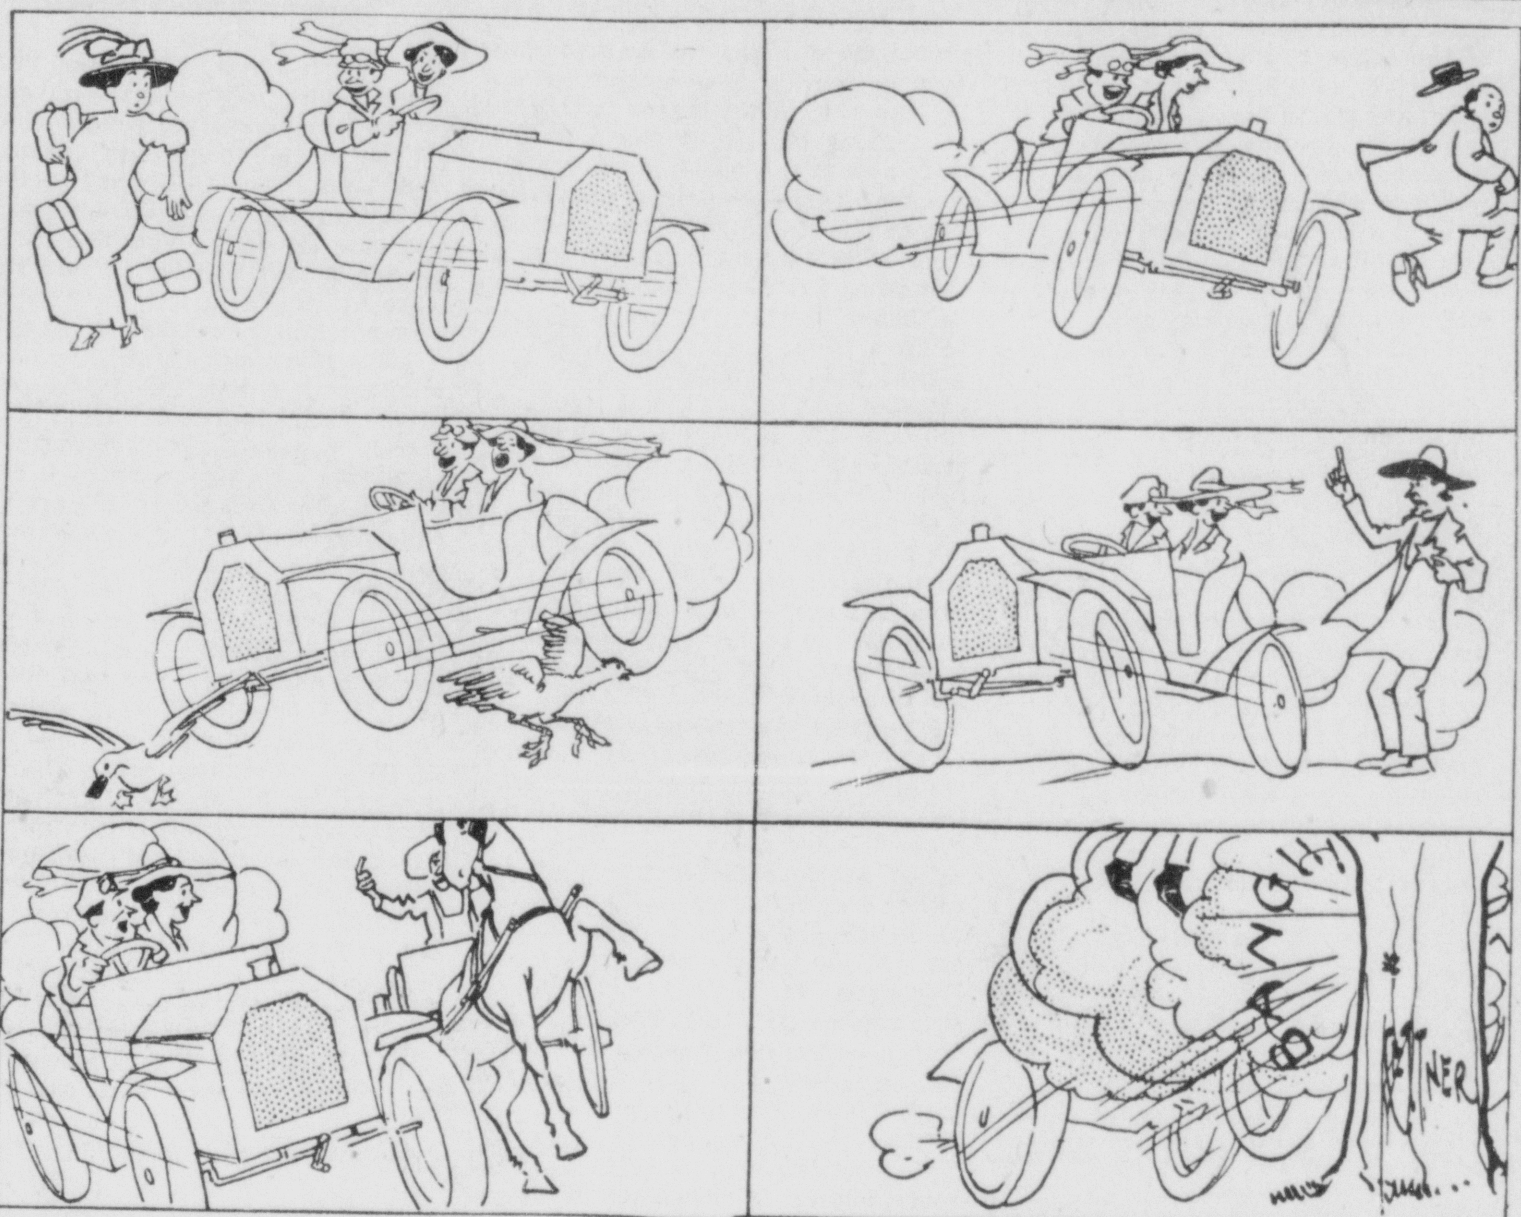

The new schedule does not effect inter-state shipments, although it is said that a change in the rates will be adopted all over the country in about sixty days. It is stated that a sort of a "block system" will be inaugurated, and the rates in a certain territory will be the same. The schedule will be governed according to the location of the railroads.

The new schedule which is now effective in Indiana makes a big reduction in practically all shipments. The greatest change is made in small weights for short transfers. The old rate to Columbus for five pounds was twenty-five cents, and under the new schedule a shipper can send fifty-five pounds to Indianapolis for the same rate. The former rate to Indianapolis was three pounds for twenty-five cents while the new rate is thirty pounds for twenty-five cents.

The Woodstock Sunday School held its Children's Day exercises Sunday evening. The house was crowded to hear the program consisting of songs and recitations, "The Business of the King." The program was well rendered and was enjoyed by the large audience. The collection amounting to \$3.15 was for the missionary work of the American Baptist Publication Society.

Children's Day exercises were held at the St. Paul and the Methodist churches Sunday and were largely attended. Special services were arranged at both churches and were in charge of the Sunday Schools.

LIQUOR DEALER IS FOUND NOT GUILTY

William Schroer, Wholesaler, is Acquitted by Mayor Swope on Charge of Illegal Sale.

TESTIFIED HE SOLD A GALLON

Introduce Evidence to Show That Mitchell Bought Four Quarts and Left Three at the Place.

William Schroer, a wholesale liquor dealer on Jeffersonville avenue, who was charged with an illegal sale, was acquitted this morning by Mayor Allen Swope. The affidavit was filed late Saturday afternoon by Officer Phillip Thompson after he saw Ed Mitchell coming from the rear door of the place with a quart bottle of whiskey.

At the trial the defendant introduced evidence to show that Mitchell purchased a gallon of liquor and that it was delivered to him in four quart bottles. It was stated that Mitchell delivered to Schroer a number of empty bottles for which he was allowed fifty-five cents and that Mitchell paid the balance in cash. It was further stated by Schroer and Mitchell that the latter was unable to carry all the bottles with him and left three at the wholesale house and took one along with him. The evidence for the defendant was given by Mitchell, Schroer and Roberts.

The state introduced two witnesses, Chief of Police Abell and Officer Thompson. The latter testified that he saw Mitchell enter and leave the saloon and that he took a drink from

the bottle. The case was prosecuted by Deputy Oscar Abel and he contended that under the law all the liquor purchased from a wholesaler must be carried away by the customer and that part of it could not be left. He pointed out that it would be difficult for an officer to successfully prosecute a wholesaler who violated the law if part of the purchase could be kept at the place, and that it would give such wholesaler an opportunity to sell in smaller quantities than a gallon as required by law. He also said that if the dealer so desired he could enter into collusion with the purchaser and they could both testify that a gallon sale had been made when in fact a smaller sale was consummated.

Mr. Abel also cited two supreme court decisions in support of his contentions, but Mayor Swope held that they were not parallel cases. The affidavit was based upon section 25 of the Proctor law which reads, "A license to sell intoxicating liquor at wholesale shall be limited to a sale of not less than one gallon at a time and a place where no intoxicating liquor shall be consumed on the premises of the seller." There seems to be some doubt among attorneys as to whether such liquor can be carried away in less quantities, and that the wholesalers here have been advised that it is not necessary that the entire amount be taken from the place at one time.

Seba A. Barnes represented the defendant in the trial.

TREES DAMAGED IN HEAVY WIND STORM

Several Trees and Many Branches Are Broken by the Fierce Gale Sunday Morning.

TELEPHONE LINES CRIPPLED

Less Damage Done in Jackson County Than in Those in Northern Part of State.

This vicinity fared a great deal better than did many places in the state in the wind and electrical storm which occurred early Sunday morning. The storm was general throughout the country and a number of persons were killed, others injured and property to the value of thousands of dollars was damaged in the state. The center of the Indiana storm seemed to be in the northern part of the state. Very little damage was done to dwellings and other buildings in this county, and the greatest loss was in the damage to trees and the telephone and telegraph systems.

In every part of the city large branches of trees were blown down and a few trees were laid low by the heavy wind. Considerable damage was done to the electric light systems.

The heavy gale did considerable damage to the electric light system, was done to the electric light system, as the wires became grounded on the wet trees and several of them were blown down. For several hours early Sunday morning after the storm the lights went out a number of times and

JEFFERSONVILLE WOMAN MURDERED

Mrs. Mary L. Kelley Killed at Her Home by Robber Who Escaped With Money.

BODY WAS DISCOVERED BY SON

Body is Bruised and Cut, But Coroner Thinks Death Was Due to a Shock.

Jeffersonville, Ind., June 17.—Mrs. Mary Louise Kelley, age seventy-eight, widow of Valentine Kelley, was brutally murdered in her home on the river road four miles west of this city Sunday afternoon, and the crime did not become known until this morning.

Robbery was apparently the motive of the crime, which seems to have been committed by some one who knew her ways, as a drawer where she kept her money had been broken open.

The body was found at midnight, covered with bedclothes on a bed, by Edward Kelley, a son.

The body is bruised in many places, the face is terribly scratched and knife wounds appear at the base of the neck and on the shoulder, but Coroner Coofs believes her death was due to shock.

Her calico waist and skirt, stained with blood, had been taken from her body and placed on a chair. A comb she wore in her hair was placed on a dresser in the son's room, where the bureau also stood. Blood stains were found on the floor of her bedroom and had been partly washed away.

Besides the son there lived with Mrs. Kelley her grandson, George Kelley, age nineteen, whom she reared. He was seen at the place at 4 o'clock and two hours later was seen walking toward Claysburg, but has not been seen since.

CAR WITHDRAWN

J. J. Peter Did Not Enter Contest at Cincinnati Saturday.

The big Buick automobile owned by John J. Peter and which was scheduled to take part in the hill climbing contest at Cincinnati Saturday afternoon was not entered into the contest. When Mr. Peter and Ross McCoy, of the McCoy Garage, arrived in Cincinnati they found that another and much more powerful Buick had been entered in the race, and that it would be impossible to take first place with this machine in the contest. Mr. Peter felt assured that he could win second place, but as his machine had never been beaten he did not want to break this record. He recently won first money at a hill climbing contest at Louisville. The machine which won first prize ascended the incline at the rate of a mile a minute.

Mr. Peter's machine was examined by a number of automobile men and they all declared that they had never seen a better stock car. The machinery was recently overhauled and placed in the best condition for the contest by the McCoy Garage. Mr. McCoy drove the machine back from Cincinnati Sunday afternoon.

FAMILY HAS RECORD

Kilby's Have Run Postoffice in Maine Town 112 Years.

William, the First One, Held Post for Twenty-Five Years, Then in Straight Succession, Came His Son and Grandson.

Bangor, Me.—Horace P. Kilby, acting postmaster at Dennysville, Washington county, will take a civil service examination, and if he passes he will succeed H. Howard Kilby, who had been postmaster since June 30, 1897. The office has been in the Kilby family for 112 years, with the exception of two brief intervals.

If there is another such, Representative Frank Guernsey of the Fourth district, who has just recommended Horace P. Kilby for the place, would like to know it.

The Dennysville postoffice was established February 24, 1800, with William Kilby as postmaster. He held on for twenty-five years, according to the records in the postoffice department, and then, on December 6, 1825, presumably about the time William Kilby was gathered to his fathers, John Kilby, presumably his son, qualified and remained postmaster for twenty-seven years.

August 20, 1852, Cyrus H. Kilby became postmaster. Whether he was a grandson of the first postmaster and the son of the second is not clear. He held on for less than two years, and then, April 18, 1854, Benjamin Kilby became postmaster and held the office for twenty-two years. December 21, 1876, Howard H. Kilby became postmaster at Dennysville and held the place until February 27, 1886, when Herbert Hallowell, a member of the Kilby family, became postmaster. He remained postmaster until the Democrats elected a president. It required a few months for the pleas of some of the good Democrats of Dennysville to move Washington, but on June 18, 1887, Edwin H. Smith was appointed to the place. Presumably he was a Democrat.

June 1, 1889, Howard H. Kilby came back into his own and served through the remainder of the Harrison administration and until July 1, 1893, when William P. Fenderson got the office during the second Cleveland administration.

Again, however, a Kilby was recognized, and June 30, 1897, H. Howard Kilby was commissioned as postmaster and he served until early in February last.

The office is a small one, and the emoluments have been small. But it now pays about \$700 a year in salary.

Once Horace P. gets well seated in the office, under the present civil service rules, it will not be easy to oust him. So no one can say when the Kilby regime will end.

"LOGO" QUILTS THE SERVICE

Canine Traveler Has No Further Use for Express Business—Resigns With Comrade.

Woodbury, N. J.—"Logo," the bulldog that has been traveling with the Adams Express wagon in this city for several years, has given up his position along with Driver "Ted" Curtis, who enters another business. Logo probably has more friends in Woodbury than any other canine. Every boy and girl stops to pet him, or give him some tidbits, and when he gets hungry between meals the dog will stop at any house he fancies, and generally he gets something.

Logo came into the city a few years ago, and showed a liking for the express business, and Curtis took him in charge. The dog's face is good for a ride on any railroad train. When he feels like taking a ride he merely boards the express car, goes as far as he likes, and takes a return train, always getting off here.

When Curtis left the company "Logo" remained a few days, but has now forsaken the office and gone to Curtis' home.

FIREMEN TURN RAT HUNTERS

Odd Situation Develops as Flames Break in Minneapolis Flat After Search for Rodent.

Minneapolis, Minn.—Curiosity, a rat hole and a match entered into a combination which caused a fire in a flat building here and which also turned firemen called to extinguish the fire temporarily to rat hunters. The fire started when Mrs. Ray Oliver, who had been frightened by a rat's daily parade about her home, decided to close the rat's nest with a piece of tin. The curiosity part came in when she lighted a match to peep into the rat-hole to see just what it looked like, and the flaming head of the match falling, set fire to paper scraps.

The fire followed, and the firemen, who extinguished the flames easily, and then were asked by Mrs. Oliver to hunt the flat over for the rat. It was not found.

Steak Saves Man's Life.

Youngstown, O.—A piece of meat on a fork probably saved the life of Elu Solger of East Youngstown. A fellow boarder got into an argument with him at his boarding house and made a jab at him with removing a piece of steak which he had on the eating utensil. The meat stopped the fork from penetrating far into the neck of the man-assailed.

MASTERPIECE IN PEARL

An exquisite bit of work has just been completed in southern California by a 17-year-old lad, Nicola Alfano, who came from Bethlehem, Palestine, a year ago with his mother and brothers. It is a reproduction in mother-of-pearl of the famous painting, "The Last Supper." In a recess of this work of art, which is carved from 50 pearls, are the disciples sitting at a table with Jesus in the center. Each disciple is carved out of a pearl, as is the principal character at the supper scene. Just over the recess, on the top edge of the frame is shown a mold, in the center of which is the tomb from which the Christ has risen and also the two Marys weeping. On each side, in separate forms, are the angels. The whole is wonderful. Its value is \$20,000. The boy will place it on exhibition at the Panama-Pacific exposition. He commenced the work when slightly over 13 years of age, and has devoted eight hours a day since then to it.

STRENGTH OF INDIAN BEETLE

Annie Drake, writing to the English Countryside Monthly from Serampore, Bengal, says: Last week a native servant brought me a longicorn beetle which he was carrying by its feelers, while the beetle was carrying a stone weighing nearly half a pound! But how the feelers could stand the strain (the beetle was carried in this fashion for about 40 yards), and how the legs could retain their hold of a heavy stone which they could not encompass, I cannot conceive! The length of the beetle was two and one-quarter inches, its feelers three inches, and it weighed one-quarter ounce only, while the stone weighed six and three-quarter ounces, measured three and one-quarter inches by two and one-half inches, and was seven inches in circumference.

LARGEST MAN IN THE WORLD

This is the latest photograph of W. T. Brinson of Waycross, Ga. He recently weighed 690 pounds, but through dieting and training has greatly reduced his weight, and now tips the scales at 585 pounds.

WIVES OF SAVAGES

Some of the savages in South America exclude women folk from every sort of public amusement, such as dancing, feasting, celebrating and other outside carrying-on. At such times the women are kept busy serving the savages with roasted monkeys, stewed turtles and crude intoxicating drinks, which the women make by primitive processes of fermentation. If they can afford it, the savages have several wives each, some of the men carrying on the custom of stealing young girls from neighboring tribes. The savage explains his having several wives this way: "This one does only garden work, and does it so well I keep her at it." Of another, he will say that she is fine at making intoxicating beverages, and so on.

GIRL MARRIED THREE TIMES

Though only 17 years old, Mrs. Mary Luther Smith, the bride of Cary Smith of Shelbyville, Ind., has been one of the principals three times in wedding festivities. She was divorced from Andrew Luther, with whom she has twice gone through the marriage ceremony. The first time she and Luther plighted their troth through the aid of the girl's mother, Mrs. Charles Hoover, who assisted them in obtaining the marriage license. The girl then was only 14. After the couple had lived together a year it was discovered that the man who had performed the marriage ceremony was not a minister, as he had claimed to be, and they separated.

EEL IN BATHING POND

A recent Sunday morning straggling passers-by were astonished to see an enormous eel, weighing between five and six pounds, make its way over the sluice-gates of Queensmere, the all-year-round bathing pond on Wimbledon common, England.

FOREST ON ICE

One of the world's most wonderful forests stands on ice. It is in Siberia in the region between Ural and the Okhotsk sea. When a well was dug in the vicinity of the forest, it was found that a depth of 300 feet the ground was still frozen.

BOOM IN TIN STOCK

1,900 Per Cent Rise in Shares Startles London.

New "Napoleon" Is Revealed—Edmund Davis, Back of Present Manipulation, Likes the Title and Dresses the Part.

London.—The records of quick profits made in the rubber boom have been beaten by those established during the rise in tin shares, which has been going on quietly the past year. Only now is the public, outside of the stock exchange, beginning to take notice of the tin boom, which is still far from attracting as much general attention as did its predecessor, the rubber boom, in which all London seemed to have taken a hand.

Last year Anglo-Continental were despised and rejected, and stood at 7 shillings (\$1.75). Only a few days ago they were bid for greedily up to \$35. Thus the lucky person who had a thousand shares at 7 shillings, costing him \$1,750, if he held them, would have been able to sell for \$35,000. This is a stupendous profit and beats anything the rubber boom gave us, at any rate as far as the speed of making is concerned.

Edmund Davis, the man at the back of the tin boom, is one of the most picturesque figures in the city. He has been associated with West African properties for many years, likes to be called a "Napoleon of Finance," and rather dresses the part. He also likes to be thought a great connoisseur of art. At one time he rented the Palazzo Desdemona in Venice, and perhaps still retains it. He is almost as well known on the continent as in London, and he is supposed to be the smartest market manipulator the city has ever seen.

He was the creator of the present boom, and he is now careering round the continent, carrying the glad news that Anglo-Continental 10 shilling shares are cheap at \$35 to all the greedy people in Paris, Berlin and Holland.

When he is in Berlin he wears the Order of the Red Eagle, which he received from the Kaiser, according to the London Evening News, from which these details are taken, says the correspondent, "ostensibly because he disagrees with the anti-German feeling in England, but the probability is that he put Emperor William into some 'good things' at the bottom, for even the emperor is not averse to buying shares at 7 shillings and selling them at \$35. We hope this remark will not be taken to mean that the German emperor is at the back of the Nigerian tin boom."

"Numberless small people have followed Davis into tin, but the curious thing is that although they were willing enough to sell their shares when the market first rose they all now are buying back the holdings which they disposed of some months ago. Therefore, at the moment no large fortunes have been actually made out of the tin boom. They are all paper profits."

MAY TURN COAL TO POWER

New Electric Laboratory at Harvard Expected to Prove That Great Sum Can Be Saved by Process.

Cambridge, Mass.—The claims recently made by certain English scientists as to the possibility of saving coal mining expense by turning the energy of the coal into electricity at the mines has the approval and support of Professor Comfort A. Adams of Harvard.

In a statement regarding the work of the proposed new electrical laboratory here, Professor Adams says that he believes that some day Boston, New York and other cities will receive their electricity for heating, lighting and power by wire from the coal fields.

The installation of a million-volt transformer in the Harvard laboratory will, it is believed, prove that such a scheme is feasible. The Harvard experts hope to show that by using a current of 1,000,000 volts, electricity may be economically carried distances of 1,000 miles or more.

SIGHT RESTORED BY BLOW

Widow of Edward Kell, J. P., Again Able to See After Many Years of Blindness.

London.—After being totally blind for many years, Mrs. Kell, widow of Edward Kell, J. P., of Leicester, has recovered her sight under extraordinary circumstances.

On getting out of bed she caught her head on the dressing table and sustained a severe blow, which had the effect of immediately restoring the sight of her right eye.

Dr. Henry, ophthalmic surgeon, states that glasses are being prepared for Mrs. Kell which will enable her to get about alone.

Wife Begged to Be Killed.

Berlin.—At Helmsdorf, on the Rhine, a young man named Joseph Strunk has been sentenced to four years' imprisonment for shooting and killing his wife.

The couple had been married only a few weeks and were on their honeymoon when the wife, an exceptionally beautiful girl, scalded herself terribly, completely disfiguring her face. She pleaded with her husband to shoot her, but at first he demurred. Ultimately, as she refused to take food and was starving to death, he shot her.

LIQUORS AS FORM OF POISON

Produce Abnormal Conditions of Circulatory System and Destroy Functions by Subtle Paralysis.

If reports are to be trusted Professor Whitney, of Wesleyan university, proves that liquors are poisonous after all the alcohol has been extracted from them. The "old nick" seems to remain in liquors when nothing but the odor is left. The Scotchman's verdict is that "whisky is good in its place. If you want to preserve a dead man put him in whisky. If you want to kill a live man, put whisky in him." Professor Whitney, like Professor Atwater, contends that alcohol is "food," that it raises the temperature of the body. He might have added it raises Cain at the same time. We prefer to believe that alcohol is a miserable deceiver, and whosoever is deceived thereby is not wise. Professor Jordan says liquors make you feel warm when you are not warm, seem to yourself wise when you really are quite simple. The experiments in Russia, where liquors are used as a supposed substitute for food, have proved that liquor has the direct effect of releasing the blood from the heart and arteries and flushing the surface of the body, producing the temporary effect of bodily warmth but in reality weakens by a form of paralysis the whole circulatory system. We think the government tests not only of the United States but of the leading nations of Europe can be relied upon. These experts agree that liquors are a form of poison, producing abnormal conditions in the circulatory system and in a comparatively short time destroying the functions of the smaller, finer vesicles of the circulatory system by a form of subtle paralysis. The man who takes even one drink can never be the perfect physical man. The physical effects are matters of observation. The mental perspective is changed. The finer restraints, the self-inspection, the self-judgment, the bashfulness, a real quality of growing manhood and growing womanhood, are broken down. The flush of liquor sweeps away these fine spiritual barriers, and the young man finds himself without moral harness and under the hallucination of this paralysis of his higher, truer, better impulses, he "enjoys" making a wild fool of himself. It is not due to the stimulus of liquor but to the release from the self-controlling apparatus of his system. Liquor does not really stimulate, but really paralyzes restraint. It is primarily a form of physical death, incipient death to the circulatory system in and around the nerves. This, we believe, is the consensus of scientific scholarship as reached by government experts in this country and in Europe. This view has the authority of experiment and observation. The effect is not temporary and recoverable. The effect is absolute death to a percentage of the circulatory system. One drink of liquor absolutely changes the physical equipment. Touch not!—California Christian Advocate.

NATIONAL MENACE IN FRANCE

Country Is In Danger of Death from Drink—Army Corps Is Lost Each Year Through Alcohol.

The French National league against alcoholism declares that France is in danger of death from drink: "Alcohol desolates our most beautiful provinces, Normandy, Brittany, the Vosges, Picardy, Maine. In Orne the decrease of population has been 80,000 in twenty-five years, in Manche 75,000, in Normandy 200,000. Infant mortality is appalling, and conscripts by scores are found unfit for service."

In Orne, one report states, 57 per cent. of those summoned to the colors were rejected, in March, 50 per cent., in the Vallee des Vosges, 60 per cent., and the drink evil is largely responsible. The military authorities calculate that France loses an army corps each year through alcohol.

Dr. Jacques Bertillon, the famous criminologist, who has made astonishing researches into the relation of alcohol to tuberculosis, estimates, in the Revue de Tuberculose, that a successful fight against alcohol in France would reduce the number of deaths from consumption yearly by some 16,000 more. What steps can be taken are being discussed by the authorities in some localities, but widespread scientific education on the subject of the baneful effects of alcohol must be promoted before a radical change for the better can be looked for in France.

But It Pays.

Because it pays, the social cesspool is kept open. It pollutes the people, but it pays. It burns out human life, but it pays. It turns energy and intelligence into worthlessness and vice, but it pays. It forces children into the factories, but it pays. It forces women into the sweatshop and the brothels, but it pays. It beclouds the brains of men, and makes them easy prey for industrial oppression, but it pays. It blinds and cripples and dementes the second and third generation, but it pays. It makes justice a joke, government a farce, civilization a mockery, but it pays.

- Because of a Yellow Letter a beautiful young girl tried to take her life;
- Because of a Yellow Letter her father was seized with apoplexy;
- Because of more Yellow Letters an aged lawyer took poison;
- A young girl drowned herself and
- An elderly spinster hanged herself in a room of a hotel twenty miles away.

- What are these Yellow Letters?
- By whom and to whom were they sent?
- These mystifying mysteries are explained in our new serial story

The Yellow Letter

The most clever piece of fiction devoted to amateur detective investigations that you ever read.

You'll find the first installment in this paper in the near future and

You Can't Afford to Miss It

Terrible Temptation.

"Of course," said the man who was looking out of the window at the heavy snowfall, "I don't believe George Washington was capable of telling a lie. But I don't consider that cherry tree incident much of a test."

"Could you devise a better one?" "Yes. I'd like to know what Washington would have said if he had stood at the door of a restaurant on a stormy night and the waiter had hurried up to him with a fine new silk umbrella with an ivory handle and no name on it, and said: 'Isn't this yours, sir?'"

Sad Ending.

"Didn't you give that tramp some money?" "Yes."

"I dare say he doesn't deserve to be helped."

"Maybe not, but his story moved me deeply."

"What did he say?"

"He told me that the only dream he ever had was of some day being a millionaire."

A Solomon on the Bench.

"You are charged with assault and battery," said the judge sternly. "Your honor, permit me to say a few words in my defense."

"Proceed."

"The man whom I am accused of beating came up to me and said, 'If Wood would row, how long would Woodrow Wilson?'"

"Case is dismissed!"

Miss Ida Critcher is at home from Columbus where she attended the funeral of Mrs. Will Setzer.

Famous Stage Beauties

look with horror on Skin Eruptions, Blotches, Sores or Pimples. They don't have them, nor will any one, who uses Bucklen's Arnica Salve. It glorifies the face. Eczema or Salt Rheum vanishes before it. It cures sore lips, chapped hands, chilblains; heals burns, cuts and bruises. Unequaled for piles. Only 25 cents at The Andrews Drug Co., Seymour, Ind.

Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., and for coughs and colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cents and \$1.00. Trial bottle free at The Andrews Drug Co., Seymour, Ind.

Blaze Strangely Started.

Petersburg, Ind., June 15.—Laurence Smith hung his waistcoat in the sun and in one of the pockets had a number of matches and a fine watch. The watch became so hot that the matches were ignited, and in trying to extinguish the flames and save the watch, Smith was badly burned. The watch was ruined.

There Were No Witnesses.

Greensburg, Ind., June 15.—Ben Wheeler, who was stabbed while engaged in a fight in his restaurant, is dead as a result of his wound. John Muldoon, who is charged with the cutting, has been arrested. Muldoon denies he cut Wheeler, and there were no witnesses.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of stomach, liver and bowels, and restore your health and all good feelings. 25 cents at The Andrews Drug Co., Seymour, Ind.

Rev. J. F. Harvey went to North Vernon Saturday afternoon and held services at the Holiness church Sunday.

Everyone reads the Want Ads.

TAFT RANKS ARE BEING DRAWN ON

Several Have Gone Over to the Roosevelt Camp.

TIM WOODRUFF AMONG THEM

In Addition There Have Been Five Desertions From the Mississippi Delegation and Seven From Georgia—Not Only That, but There Are Other Desertions, Some Favoring Justice Hughes and Some Robt. T. Lincoln.

Chicago, June 17.—The strength of the respective candidates for the presidential nomination in the convention, the first session of which is to be held tomorrow at noon, was as follows when the work of the Republican national commission ended late Saturday night, with all the contests decided:

Taft, 568; Roosevelt, 464; La Follette, 36; Cummins, 19; total, 1,078.

This morning, after authorized changes, the best poll of the strength of the respective candidates, irrespective of enthusiastic and unsupported claims, is as follows: Taft, 547; Roosevelt, 479; La Follette, 36; Cummins, 10; Charles E. Hughes, 4; Robert T. Lincoln, 2; total, 1,078. Necessary to choice, 540.

President Taft, it will be noted, has lost nineteen votes.

Woodruff Goes Over.

Timothy L. Woodruff of New York authorized an official statement that he had changed from Taft to Roosevelt. Five delegates from Mississippi announced that they had changed from Taft to Roosevelt, and seven delegates from Georgia announced that they had experienced a like change of heart. The two votes in the Illinois delegation which were Taft's changed to Lincoln; four delegates from New York, hitherto credited to President Taft, announced they would vote for Associate Justice Hughes. President Taft has therefore today seven more votes than necessary to nominate him, while ex-President Roosevelt is sixty-one votes short of a nomination.

An affidavit charging an attempt to bribe F. H. Cook, a negro delegate from Louisiana, for \$1,000 to desert the Taft forces and vote for Roosevelt, executed by Cook himself, has been made public by Director McKinley of the Taft headquarters.

The assertions of delegates that they would vote for Hughes and for Lincoln is the first official indication, outside of the candidacies of Senators La Follette and Cummins, that a compromise or harmony candidate may be nominated in this convention. Director William B. McKinley of the Taft bureau declares that President Taft will have 599 votes in the convention and will be nominated on the first ballot.

Wisconsin Up in Arms.

It is said that Roosevelt has set aside Senator Borah as the Roosevelt candidate for temporary chairman and has selected Governor McGovern of Wisconsin. It was learned on indubitable evidence that Governor McGovern during the last few months has been a frequent visitor to ex-President Roosevelt's office in New York. The Wisconsin delegation is up in arms over the McGovern episode, for the reason that Senator La Follette and his friends in that state and in the state of North Dakota have believed all along that they should keep free from all entangling alliances with the Roosevelt forces.

The Roosevelt people have a tentative plan by which Governor Johnson of California is to start the trouble at the first session of the convention tomorrow. When Chairman Roosevelt directs the secretary of the convention to call the temporary roll of delegates, it is the plan of the Roosevelt people to put forward Johnson to demand that the entire twenty-six delegates of California be placed on the temporary roll. Should Chairman Roosevelt direct the secretary to proceed with the temporary roll it is the plan of the Roosevelt men to insist that Governor Johnson shall then and there call for a vote of the convention. This, the Roosevelt people believe, would prevent the temporary roll being subject to final review on the part of the committee on credentials, which is in the hands of the Taft men. Such a proceeding on the part of Governor Johnson would without the slightest doubt bring this great conflict immediately to a head. It would result in tumultuous scenes.

WEATHER EVERYWHERE

FINAL OUTCOME MORE IN DOUBT THAN EVER

Situation at Baltimore Is One of Uncertainty.

Baltimore, June 17.—That he is concerned in any way in a reported deal with Murphy of New York regarding the Gaynor boom, Thomas Taggart, the Democratic leader of Indiana, denies emphatically.

"I am absolutely and sincerely for Governor Marshall of Indiana, and I'll go into no deal unless our Indiana man is at the head of it," said Mr. Taggart. Taggart and the other committee men discredited the report from New York to the effect that the proposition to nominate Senator O'Gorman for the position of temporary chairman is a fling at Leader Murphy.

There is no truce in the Democratic battle. The workers for the several candidates for the presidential nomination are occupied in drawing their lines closer, in putting in a good lick here and another there. With only one week remaining for preliminary jockeying, the situation is just as unsettled and the final outcome more in doubt than ever.

Mayor Gaynor's name, unless he himself should absolutely forbid it, is to be presented to the Baltimore convention as a candidate for the Democratic presidential nomination.

CHOSE BULLET

Convicted Nevada Murderer Takes Advantage of New Law.

Reno, Nev., June 17.—For the first time in the criminal history of Nevada a man will be shot to death in accordance with the law of the state, on the 23d of this month. Under the new criminal code passed by the last legislature, any condemned murderer is given the preference of the mode by which he is put to death as between hanging, heretofore the one and only method provided by law, and shooting. A third method, that of administering poison, was eliminated from the code after much controversy, just before its adoption.

Andrew Mircovitch, an Austrian, of Tonopah, was given this choice as the result of his conviction of the murder of John Gregory, related to wealthy residents of this city. When arraigned for sentence he was asked by the court which he preferred and he replied, "I prefer to be shot."

The new law prescribes that among three riflemen firing simultaneously at the heart, two shall have loaded and one a blank cartridge.

TERSE TELEGRAMS

Eighteen persons were killed and sixteen injured when a Stockholm express train collided with a freight train.

A storm of almost cyclonic force passed over Cincinnati and vicinity Sunday, causing thousands of dollars damage.

There is every indication that the Perth Amboy strike that for a week was marked with riot and bloodshed, is at an end.

The heaviest rain storm of years swept St. Louis Sunday, leaving in its wake a flood and causing damage totalling into hundreds of thousands of dollars.

Fighting between federal soldiers of Mexico and the revolutionists under General Orozco is about ended, according to opinions reported to the state department.

Newark, N. J., was chosen as the convention city for 1914 by the International Stereotypers and Electrotypers' union in convention at San Francisco.

At Lexington, Ky., Policeman B. R. McCann shot and wounded Sheriff Daniel W. Scott. There has been bad feeling between the two men ever since the last election.

A man named Reusset has been arrested in Paris for having in his possession nine letters from Cuba and Mexico and over 200 registered letters which were stolen from the Havana and Central American mail.

NOW WORKING ON PLATFORM

Both Taft and Roosevelt Camps Are Busy.

WIDELY DIVERGENT VIEWS

For Instance, While the Taft Platform Will Indorse the Aldrich Currency Plan, the Roosevelt Platform Will Absolutely Repudiate It—Mr. Fairbanks Slated as Head of Resolutions Committee if Tafters Win.

Chicago, June 17.—Late Sunday afternoon the first real conference over the platform upon which President Taft will run if he wins out in the convention took place. It was held at the Taft rooms, and those who took part in it were Senator Root, Secretary Hilles, Dr. Nicholas Murray Butler, ex-Vice President Fairbanks and Charles Hopkins Clark of Hartford, Conn. Mr. Fairbanks is slated for the chairmanship of the resolutions committee if the Taft forces win. No praise is to be withheld from the performances of the Roosevelt administration in this platform. The speech which Senator Root has prepared follows this same policy. Mr. Roosevelt's condemnation is to come in another part of the platform, as if to show how he himself has changed and added to his creed a lot of new ideas which the party repudiates.

One thing which was talked over at the conference of the Taft platform makers was the six-year presidential term question. This is going to receive very serious consideration here, but just what the outcome will be is uncertain. Next to this feature the most interesting fact which developed in connection with the work of the two rival sets of platform constructors was the disclosure that whereas the Taft platform is to give what might be described as a mild indorsement of the Aldrich currency plan, the Roosevelt platform will absolutely repudiate it. The Roosevelt plank will advocate a currency system under the absolute control of the government. There is to be plank in the colonel's platform handling the woman's suffrage question. It will follow the colonel's ideas that the question is one for all the women of the land to settle by themselves and will advocate a referendum on the subject. Other points are these:

A declaration that the present struggle is one to return the government into the hands of the people; a declaration favoring popular government through such instrumentalities as preferential primaries, initiative, referendum and recall, including the recall of judges, but leaving to every local community the selection of remedies, according to its local needs and desires; a declaration in favor of the control of trusts by means of a federal agency; a declaration in favor of a revision of the tariff downward; a commission to inquire into the question whether the workmen in protected industries are receiving their proper proportion of the benefits of the tariff, the lowering of the tariff to fall first on industries which have treated their workmen unfairly; declaring for legislation to work out "social justice" and "industrial democracy" in the industrial world, and for conservation.

A peace plank will be part of the Taft platform. It will favor the principles contained in the president's arbitration treaties. Another plank will appear reaffirming the enforcement of a civil service law.

NEARING AN END

Mexican Rebellion Said to Be at Its Last Gasp.

El Paso, Tex., June 17.—The arrest of General Campa and Colonel Alatorre and the telegraphing of General Orozco to his father at Juarez to send him sixty picked men as a bodyguard, leads to the belief that the combined attack of the federal forces surrounding Chihuahua is impending and the rebels are disintegrating.

Following the arrest of the two officers the city of Chihuahua has been in a turmoil and friends of Campa threaten to mutiny. Reports from Chihuahua indicate that the arrest of Campa has turned a large part of the rebel forces against Orozco and open mutiny may be expected.

While Orozco is threatened with mutiny in his own ranks, the federal advance is slowly being pushed forward. The rebel garrison at Santa Tomas, west of Chihuahua, has evacuated the town and retreated toward Chihuahua. The advance of the federals to the west of Chihuahua is driving all the small rebel garrisons back to the main army, it is said.

She Denies the Charges.

New York, June 17.—Julia Sanderson, the actress, who is suing for a divorce from Tod Sloan, the former jockey from Indiana, has filed a reply to her husband's counter claim for divorce, in which he alleges that she has been guilty of misconduct with "a man named Reynolds and a man named Worthington." Miss Sanderson denies that she is guilty of either of the acts charged.

Twenty persons were killed by a tornado in Bates and Johnson counties, Missouri.

COLONEL W. F. STONE.

Sergeant-at-arms Chicago Republican National Convention.

© by Moffett.

ZANESVILLE SUFFERS HEAVY TORNADO LOSS

Two Killed When Steeple Crashed Through Church Roof.

Zanesville, O., June 17.—Two persons were killed, two others injured fatally, a dozen more received hurts of such character that the outcome is doubtful, while scores of others were less seriously injured and property valued at \$500,000 was destroyed as the result of a tornado that struck this place Sunday morning.

The tragedy of the storm centered at the St. Thomas Catholic church, where the early mass was being celebrated by Rev. Father J. P. Roche. The auditorium was occupied by 600 people when the storm broke, with a brilliant electrical display and crashing peals of thunder.

At 6:40 o'clock the golden cross-crowned steeple, standing seventy-five feet above the roof, was twisted off and with several of the huge boulders which supported it, crashed through the roof of the auditorium among the worshippers. Most of the wreckage lodged in the choir loft. Thomas Skilman, aged fifty, was instantly killed by a stone which struck his head, and John F. Dynan, thirty-six, who also was struck by a stone, died two hours later.

The storm path was not more than 100 yards wide, but along this track the wind unroofed buildings, razed chimneys and uprooted trees. All business houses in the central section of the city suffered losses of \$100 to \$2,000.

May Organize Local Company.

Shelbyville, Ind., June 17.—Patrons of the Central Union Telephone company in Boggs town and vicinity, in resistance to an order of the company raising the toll rate to \$1.25 a month, have adopted the slogan "Dollar a month or take 'er out," and sixty subscribers have signed an agreement to that effect. They also have named a committee to confer with the one planning for the organization of an independent company in this city.

Prompted by Grief.

Chicago, June 17.—According to an opinion expressed by the coroner's jury investigating the death of Mrs. R. N. Edwards, formerly of Indianapolis, and her two boys, grief over the death at birth of a girl baby a month ago led the woman to asphyxiate herself and sons.

The Cuban Revolt.

Havana, June 17.—The oft-repeated reports of the death of General Estenoz, the head of the present revolution, are still without official confirmation. The secretary of war states that so far 600 rebels have given themselves up and 150 more have offered to surrender. He is confident that the revolt is dying out.

Girl Routs Purse Snatcher.

Indianapolis, June 17.—Miss Esther Slawson, a sixteen-year-old girl, who, with her aunt, Mrs. Ida Slawson, was attacked by a negro purse snatcher, drew two long pins from her hat and stabbed the assailant until he fled.

The French Red Cross society has decided to use aeroplanes in its work.

INDIANAPOLIS POLICEWOMEN

Movement for Such an Innovation at Capital City.

MAYOR SEEMED AGREEABLE

The Anti-Vice Crusade at Indianapolis May Lead to the Appointment of a Number of Women to Police Duty as a Special Force to Aid in Combatting the Social Evil in Its Public Phases.

Indianapolis, June 17.—Following statements issued by Mayor Shank that Dr. Amelia Keller would make a good policewoman and would be able to handle the problems of young girls on the streets at night better than the men on the regular force, C. S. Denny, chairman of the social committee of the men and religion forward movement, has again demanded that Mayor Shank fix a definite date for the closing of all resorts and grant the long-promised police powers to the women. The statements issued by the mayor especially referred to a recent hotel raid in which several girls of a tender age were arrested.

Denny agrees with the mayor in the belief that Dr. Keller and the other women could be of great assistance to the administration in handling this vexing problem and predicts that if the police powers are granted the resorts will close long before Dec. 1.

FINALLY GOT HIM

Man Wanted For Killing Kentucky Policeman Arrested in St. Louis.

Indianapolis, June 17.—George Blackburn, who is wanted in Spencer county for killing J. C. Dawson and wounded James Bell, Owensboro (Ky.) policemen, June 1, was captured Sunday in a rooming house in St. Louis by Thomas Larmore, Indiana state prison warden, and Captain of Police Krause of Vincennes.

Larmore and Krause have arrived in Indianapolis with their prisoner on the way to the state prison, from which Blackburn was paroled. The prisoner will then be turned over to the Spencer county authorities to be tried for murder. Blackburn, who is said to be one of the most desperate men ever sentenced to the state prison, also is wanted in Owensboro, Ky., for horse stealing. It was while in pursuit of Blackburn for horse stealing that Dawson lost his life and Bell was wounded. The officers followed him across the Ohio river into Spencer county, and coming on him on a lonely country road, engaged in a revolver fight.

New Trolley Line Proposed.

Indianapolis, June 17.—The Chicago, Gary & Fort Wayne Railroad company has been incorporated with the secretary of state, with a capital stock of \$50,000. The new road, it is proposed, will run in a westerly and northwesterly direction through Allen county, thence through Whitley, Kosciusko, Marshall, St. Joseph and Laporte counties. It will connect with the Goshen, South Bend & Chicago road, and another division will go through Marshall, Starke, Laporte and Porter counties. The road will be approximately 165 miles long.

Detective Shot at Boys.

Shelbyville, Ind., June 17.—Leroy Joyce, nineteen years old, and Paul Colvin, seventeen, were arrested here on complaint of Detective Penny of the New York Central lines, whom the boys are said to have stoned as a train passed through here. Penny leaped from the train and shot twice at the boys, but they escaped. They admitted they had a grudge against the detective.

Victim of Indiana Tornado.

Muncie, Ind., June 17.—During a violent wind and rain storm Sunday a tree was blown across the highway near Economy and fell across a buggy in which Mrs. Harriett Conger and her coachman were riding. The driver was caught in such a manner as to be choked to death before assistance could reach him. The tornado did much damage.

Accident Terminated Fatally.

Thorntown, Ind., June 17.—Mrs. E. L. Culver, wife of a well known farmer living one mile east of here, is dead from the result of injuries received a year ago when the horse she was driving took fright at an automobile and ran away. She never was able to walk after the accident.

Given Another Chance.

Bloomington, Ind., June 17.—After he had entered a plea of guilty of being a bigamist, Ernest Landers, twenty-eight, who came here from Atlanta, Ga., leaving a wife and little son behind, was given a sentence of two to fourteen years in the state reformatory and then was paroled.

Woman Caught on Track.

Lawrenceburg, Ind., June 17.—While returning from the grave of her son, which she had decorated with flowers, Mrs. Peter Marshine, seventy-five years old, was struck and killed almost instantly by a passenger train. The woman was walking home on the railroad track.

MRS. CHARLES D. BLANEY.

California Roosevelt Delegate to Chicago Convention.

HARRY THAW AGAIN SEEKING FREEDOM

Third Attempt to Gain Liberty Began Today.

White Plains, N. Y., June 17.—On a writ of habeas corpus, this morning before Justice Keogh Harry K. Thaw, the slayer of Stanford White, began his third attempt to gain his liberty. The sole question to be tried out before Justice Keogh, without a jury, will be whether he is now sane. Thaw contends that he is perfectly rational and that he is being kept in the asylum through a conspiracy of his enemies.

Thaw was taken from the state asylum for insane criminals at Matteawan to the White Plains jail eight days ago, and since that time he has occupied a large room in the hospital section of the jail. He receives his meals from a nearby hotel and his quarters are more comfortable than the room assigned to him at Matteawan. His mother, Mrs. Mary C. Thaw, and her daughter Alice, formerly the Countess of Yarmouth, arrived at White Plains on Sunday afternoon. They engaged a suite of rooms at a hotel a short distance from the jail, where they will remain until the hearings are concluded.

Although considerable testimony will be read, it is believed that the hearings will occupy at least two weeks. Then Justice Keogh will start on his vacation, and it is thought he will not render a decision until his return from a trip to Europe. Thaw has expressed an opinion to several friends that he will gain his freedom this time.

ENDED IN INSANITY

Young Educator Suffers From an Old Football Injury.

Alexandria, Ind., June 17.—As the result of a football accident six years ago, when he was struck on the head by a spiked shoe, Raymond Grant, twenty-three years old, member of a prominent family in this city, is insane. Grant was a member of the '05 and '06 high school team which won the state championship. He was graduated from the Alexandria high school and attended Indiana university, leaving that institution one year ago to accept a position as instructor of history in the Seattle (Wash.) high school under J. G. Collicott, a former superintendent of the public schools here. An examination by an Indianapolis specialist several weeks ago disclosed the fact that the young man had studied too hard, causing the injury to affect his brain. The young man's most serious outbreak was a threat to kill both his father and mother. He was taken in charge by local authorities and taken to Anderson, where he awaits admittance to an Indianapolis hospital.

Had to Kill the Horse.

Shelbyville, Ind., June 17.—James Stewart, twenty years old, of this city, may die of internal injuries, the result of a collision with a horse while he was riding a motorcycle. It was necessary to kill the animal, one of its legs being broken. Stewart was unconscious more than an hour and his machine was wrecked.

Ancient Tombs Invaded.

Rome, June 17.—Italian scientists have explored the ancient Roman necropolis of Oca, where they discovered twenty-one tombs hewn out of the rocks. The tombs contained glass and bronze vases, earthenware and cinerary urns of the greatest value. The necropolis dates from the first century of the empire.

When an automobile carrying a party of Indianapolis "joy riders" went down an embankment near that city Sunday, Mrs. Eva Hammond, aged twenty-three, and James Mayo, the colored driver, were killed.

INDIANA DELEGATES

Hold Conference to Select Members to Committees.

Chicago, June 17.—Delegates to the national convention from Indiana practically decided at preliminary conferences yesterday the program that will be carried out today when the delegation will meet to select the Indiana members of the convention committees and to transact other business that will come before it as a state delegation. The meeting was scheduled to take place at 2 o'clock at Indiana headquarters, Congress Hotel, and there is widespread interest among Indianians in the proceedings.

Harry S. New will be elected chairman of the delegation and as such will act as spokesman for the delegation on the floor of the convention and announces the delegation's votes on all propositions.

Charles W. Fairbanks will be elected Indiana member of the resolutions committee and former Senator James A. Hemenway will be chosen to represent the delegation on the committee on credentials. The latter committee is sure of an all-night session Tuesday night and will be a veritable storm center while the contests are being thrashed out.

Either James E. Watson or Joseph D. Oliver will be elected a member of the convention committee on rules.

James P. Goodrich is slated for election as Indiana member of the Republican national committee, to succeed Harry S. New. It will not be surprising if Goodrich's election is unanimous. Two of the Roosevelt men on the delegation announced they will vote for Goodrich on the ground that as state chairman he was fair to all elements of the party.

ON THE BATTLE GROUND

Seymour Republicans Attend National Convention at Chicago.

Judge Oscar H. Montgomery, delegate-at-large from the Fourth congressional district, Postmaster E. A. Remy and Judge John M. Lewis, district chairman, are in Chicago to attend the republican national convention which convenes tomorrow. Judge Montgomery and Mr. Remy left last night and Judge Lewis started Saturday.

The places of Judge Montgomery and Webb Woodfil, the other delegate-at-large from this district, will not be contested. The contest papers against the Fourth district delegates were withdrawn from the national committee before they were considered. Because of the immense crowd that desires to attend the convention, many of the visitors who went to Chicago will not be able to find a place in the convention hall, but the local visitors have been assured that seats will be saved for them and they will watch the proceedings of the convention from advantageous positions.

TO APPEAL CASE.

Ruddick Divorce Contest Will Be Taken to the Supreme Court.

The Ruddick divorce case, which was decided Friday afternoon in favor of the plaintiff, B. S. Ruddick, will be appealed, according to an announcement of the defendant's attorneys. Mrs. Laura Ella Ruddick's attorney, James F. Cox, said he would file a motion for a new trial, and as this will probably be overruled by Special Judge Tremain, the case will be appealed to the supreme court.

In speaking upon the demand for alimony, the court stated that he did not believe that Mrs. Ruddick had assisted her husband in building up the estate and that she had been liberal with her expenditures of money. The judge figured that she was worth about \$25,000 and did not need alimony. Ruddick's attorney in pleading declared that he had drawn about \$50,000 from the family estate and had from \$25,000 to \$30,000 of that amount left. The cost of the divorce proceedings have already reached a large sum and the appeal will add to this amount. The court held that the plaintiff pay the costs of the trial in circuit court.

ABOUT ARKANSAS

W. H. Lewis, of Stuttgart, Tells of Conditions There.

W. H. Lewis formerly of this county, but who for sometime has lived at Stuttgart, Arkansas, writes the Republican about that part of the country. Mr. Lewis is now engaged in the real estate business and is well pleased with his new home. His letter reads as follows:

The Republican, Seymour, Ind. Gentlemen:—

Find enclosed one dollar to extend subscription for your paper for another year. I am very well pleased with the paper and find much news that is of interest to me, as I formerly lived in that part of the country.

I have lived in Arkansas for four years having moved here from Indiana, and I find it a very desirable and interesting place to live, the seasons being much longer, which is an advantage in growing more varied crops than in Indiana. Rice is the principal crop in this part of the country. Seeding is well on now, and some of the farmers have begun to irrigate their rice crops which promise to be good. Rice here last year sold as high as \$1.20 per bushel, and it is very easy to grow from ninety to one hundred bushels per acre. The average yield over the entire county runs right at sixty-two bushels per acre.

We also grow very fine oats, and have known as much as eighty-five bushels being grown to the acre.

Hunting and fishing is a great sport here. I have killed forty-eight squirrels and caught several large cat fish ranging in weight from four to fifteen pounds. Duck shooting is fine here in the fall and winter, as they come in the rice fields by the thousands and it is no trouble for a man, who can handle the shot gun, to kill all he can carry in an hour or so. Quail shooting here is plentiful. I have killed as many as thirty-five in two hours.

We have an ideal climate, and a man who likes work or sport would get good returns and would not make a mistake when he visits Arkansas county.

If any of your readers desire more information concerning this country, I would only be too glad to answer any questions they might ask me if they will address me at Stuttgart.

Yours very truly,

W. H. LEWIS.

MEMORIAL EXERCISES

Reddington K. of P. Lodge Held Services Sunday.

The Knights of Pythias of Reddington held Memorial services Sunday. The exercises were conducted at the church and a large number attended. J. A. Linke, superintendent of the Seymour schools delivered the address. Music was furnished by the Fox orchestra.

After the conclusion of the exercises at the church the members of the order lead by the Reddington band marched to the cemetery north of the town where the graves of the deceased members were decorated with fitting services. Among the members from this city who attended were Clark Davis, Ed Kidd, Robert Hall and D. DeMatteo.

Notice to Contractors.

June 17, 1912.

Notice is hereby given that the Advisory Board of Redding Township, Jackson County, Indiana, will receive sealed bids at my office until July 15th, 1912 at 2 p. m. for the erection of a school house in said township at Woodstock according to the plans and specifications now in my office. Said school house to be completed by first day of September 1912. The right is hereby reserved to reject any and all bids.

Mrs. A. A. Dixon Dead.

A message was received by Ewing Shields this morning stating that his sister, Mrs. Nellie Shields Dixon, died at 8:45 o'clock this morning at her home in Ft. Dade, Florida. Her death was unexpected to her relatives here, for while they knew that she was not in the best of health no information had been received that she was critically ill.

Nellie Shields was the daughter of Mr. and Mrs. L. L. Shields and was born at Shieldstown January 4, 1866, making her age forty-six years. She spent the greater part of her life in Seymour and had an extended acquaintance. In June 1891 she was married to A. A. Dixon, who is now chief clerk to the quartermaster of the United States Army, located at Ft. Dade. She had been ill for several years with cancer, but her condition was not regarded as critical at

Mrs. Elisha C. Bess Dead.

Mrs. Martha J. Bess, wife of Elisha C. Bess, a well known lady of Vernon township, died Saturday at her home in Crothersville.

Martha J. Anderson was born in Clark county April 28th, 1840. She was married to Elisha C. Bess of Jackson County, Indiana October 4th, 1857. To this union were born twelve children, six sons and six daughters. Three of her children died in infancy, one daughter and two sons. One son, Jesse L. died August 11th, 1899 being twenty years old. Her eight children are: Mildred Owens of Seymour, Ind., Cynthia A. Brady of Crothersville, Ind., Elisha C. Bess, Jr. of Indianapolis, Ind., David H. Bess of Me-
Person, Kansas, Sarah A. Deputy of Crothersville, Ind., Emma McCannan of Seymour, Ind., Charles F. Bess of Ottawa, Minnesota, Laura E. Bridges of Claytonville, Illinois.

She joined the Christian church thirty-three years ago and was a active member during that time. She died on the 15th day of June, 1912 at 11:00 o'clock a. m., being 72 years, 1 month, and 17 days old. She leaves to mourn her departure a husband, five daughters, three sons, twenty-four grandchildren, three great grandchildren, one half brother and a host of other distant relatives.

Funeral services were conducted this afternoon at 2 o'clock at the M. E. church by Rev. Mr. Harlow, pastor of the Christian church of Crothersville. Burial at Crothersville cemetery.

TREES DAMAGED IN HEAVY WIND STORM

(Continued from first page)

it was daylight before the trouble was located.

Several telephone lines were also torn down in the city by the falling trees and branches. Throughout the county considerable telephone trouble is experienced today although the various companies have linemen at work repairing the broken wires. A few telephone and telegraph poles were broken close to the ground and it took some time to locate these. The greatest damage to the telephone system was done between here and Columbus. At one place just north of the Sand Creek bridge four poles in a row were broken.

Several farmers today reported that the wind had blown down considerable wheat, but it is not believed that a great amount of damage was done to the fields of grain.

Sunday evening the street lights on the system in the northeast part of the city were out because of grounded wires.

The picnic of the German Lutheran school was held this afternoon although the rain interfered with the outing. The children marched from the school to the city park, the Seymour Military Band leading the parade. Each child carried an American flag. A Maypole was carried by one of the scholars and several girls held ribbons which were fastened to the top of the pole.

Almost Too Much.

A Boston minister wants parents to stop talking baby talk to their children and to read Plutarch, Plato, Juvenal and Tacitus for the good of their little ones. But a classic home with modern improvements would be a little more than any family outside of an intellectual center could well stand.—Baltimore American.

Just as He Wanted Him.

Visitor—"Can I see that motorist who was brought here an hour ago?" Nurse—"He hasn't come to his senses yet." Visitor—"Oh, that's all right. I only want to sell him another car."—Judge.

STATE BOARD IS DEEPLY STIRRED

Medical Examiners Going After Sellers of Cocaine.

LICENSE MAY BE REVOKED

The Case of a Fort Wayne Physician and Druggist Charged With Selling Injurious Drugs to Minors Will Be Taken Up in July—Belief That Such Practice Is Widespread Will Lead to Further Investigation.

Indianapolis, June 15.—Dr. H. W. Niswonger, a physician and pharmacist at Fort Wayne, has been cited by the state board of medical examination and registration to appear before it July 19 and show cause why his license as a physician should not be revoked because of alleged sales of cocaine to minors.

The action against Niswonger was based on affidavits filed by minors, who said they bought the drug in the Niswonger store, and by a detective who arrested Niswonger on a charge of illegal sale of the drug. A case against Niswonger is now pending in the Allen county courts.

The board believes the sale by physician-pharmacists of cocaine, morphine, etc., illegally, is widespread, and has determined to revoke the physicians' licenses when proof of illegal sales is found. Dr. J. M. Dinneen of Fort Wayne, president of the board, who collected the evidence in the Niswonger case, said:

"The sale and use of such drugs as cocaine and morphine is far worse than the sale and use of alcoholic liquor. A victim of the alcohol habit has a chance to reform, but the victim of cocaine or morphine, never. A man may use alcohol without becoming a thief or a liar or a cheat, but the user of cocaine or morphine sooner or later becomes one or the other, or all three. We have in jail in Allen county now some young men who were arrested for crimes traceable to their use of cocaine obtained illegally."

Diplomatic.
"Tommy—What does the paper mean by calling Mr. Sharp an eight-by-ten business man?
"Tommy's Father—I presume it means he is not exactly square.—

ARE YOUR KIDNEYS WELL?

Many Seymour People Know the Importance of Healthy Kidneys.

The kidneys filter the blood. They work night and day. Well kidneys remove impurities. Sick kidneys allow impurities to multiply.

No kidney ill should be neglected. There is grave danger in delay. If you have backache or urinary troubles.

If you are nervous, dizzy or worn out, Begin treating your kidneys at once.

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by home testimony. Mrs. Robert Metz, 314 W. Brown St., Seymour, Ind., says: "I consider Doan's Kidney Pills the best kidney medicine I ever used. Another member of my family also took this preparation with great benefit. We are never without a supply of Doan's Kidney Pills in the house."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

De do "Printing that Pleases."

Fifty Years Ago Today. June 17.

Federal gunboat attack on Confederate obstructions in the White river channel at St. Charles, Ark. Early in the action a Confederate shell exploded the steam drum of the Ironclad Mound City, destroying nearly her full complement of officers and seamen. The killed numbered 125, the wounded 25 and the survivors 23. Federals on land captured the Confederate works.

Twenty-five Years Ago Today.

The Parnellites and Gladstone Irish party in parliament left the house of commons in a body as a protest against the government's suppression of debate on the Irish "crimes" bill. Balloon of the New York World ascended from St. Louis 16,000 feet.

Heart to Heart Talks.

By EDWIN A. NYE.

UNCLE HENRY'S ORCHARD.

"Have you any Rambos?" The salesman at the commission house selected an overgrown specimen fostered by some modern orchardist and, holding it out to me, replied, "Yes; this is the Rambo."

Shades of Uncle Henry's orchard! I had intended to ask for such old timers as the Milan and the Willow twig and the others, but turned away.

And at dinner I was telling the folks that apples nowadays were not what they used to be. "Why, when I was a boy—"

Seeing my son wink at his sister, I changed the subject.

But I kept my vision.

The vision was of an old time orchard where the trees grew big and thrifty.

It was a hazy autumn day. The dust of the road was soft to the tread of three barefooted boys who stealthily deployed from the woods where a big log represented the good ship Nancy.

We were playing "pirates." Nor did we know that both Thucydides and Homer had lauded pirates or that Solon had kept a school for them in Athens. Ours was the fierce buccaneering of Sylvanus Cobb and Horatio Alger and the New York Weekly Ledger.

The loot of these freebooters? The Rambo row, second from the southeast corner of the "stake and ridged fence."

"Sh, lads! Steady now." (They say Uncle Henry has threatened to use his gun.) "Forward!" ("Don't let that dog see you, Bill!") "Jim, get behind that tree, quick!"

Thus the three corsairs. Did they not know they could have all the apples they could carry by asking for them? But—in the name of Captain Kidd!

And so they fill their pockets and hats and blouse waists.

Apples of Hesperides? How infinitely better the flavor and tang of those Rambos, partly eaten and partly stored beneath the decks of the Nancy, riding there at anchor, than the Rambos down cellar at home!

And—

But I am a garrulous old man blithering about the good old times. And all things mortal pass. And the walls of one's arteries harden with the years and the blood moves sluggish.

But, Rambos? Why, in those days—

CONNECTICUT CHILD SEIZED BY AN EAGLE

Fortunate Little Dress Broke Under the Strain.

South Norwalk, Conn., June 15.—The largest eagle ever seen or shot in these parts attacked Emma Treadwell, an eight-year-old girl, in the rear of her home in Westport. The bird, which measured seven feet from tip to tip of the wings, soared down on the child as she was picking daisies. The eagle grabbed the girl by the back of her gingham dress with his claws and started to fly away with her, but the goods gave way and the child fell into the grass. The eagle was returning to renew the attack when the child's cries alarmed Rudolph Treadwell, the father, and he came out with a shotgun and, using the two barrels, brought the king of the air to the ground. Even then the bird put up a stubborn fight and clawed Mr. Treadwell viciously when he approached him. The girl was lacerated somewhat by the bird's claws and was bruised by her fall to the ground, but her injuries are not serious.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by all druggists. Take Hall's Family Pills for constipation.

A "Want Ad." in the Republican is a "Want Ad." in the Home.

Practical Fashions

LADY'S MIDDY WAIST.

One of the prettiest mid-length blouse styles that could be desired is given in this model. The garment slips on over the head and is neat and stylish. It is not hard to make and can be fashioned by a variety of fabrics, including galatea, madras, chambray, pique and linen. White linen with big sailor collar and chic turn-back cuffs of blue would be very smart.

The pattern (5779) is cut in sizes 32 to 42 inches bust measure. Medium size requires 2 3/4 yards of 36 inch material.

To procure this pattern, send 10 cents to "Pattern Department" of this paper. Write name and address plainly, and be sure to give size, and number of pattern.

A Double Break.

"I just saw Hunter and he looks pretty bad. What's the matter with him, do you know?"

"Compound fracture."

"What sort of compound fracture?"

"He's broke, and Miss Richley, discovering the fact, broke her engagement to him."—Catholic Standard and Times.

John Bulger, of Indianapolis spent Sunday with Mr. and Mrs. W. P. Rooney and other friends here.

Republican Want Ads. Pay.

A VALUABLE SUGGESTION.

Important to Everyone.

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live in indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, inability to hold urine, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

An herbal medicine containing no mineral or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root.

You may receive a sample bottle of Swamp-Root by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention the Seymour Daily Republican.

N. Y., and mention the Seymour Weekly Republican.

Fifty Years Ago Sunday. June 16.

Battle at Secessionville, S. C. General H. W. Benham's Federal command, numbering 7,000 men, assaulted the Confederate defenses of Charleston on James Island and was repulsed.

Twenty-five Years Ago Sunday

The celebrated Sharp bribery trial began in New York. President Cleveland rescinded the order for the return of captured battleflags to the Confederates.

Could Shout for Joy.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatisms, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at The Andrews Drug Co., Seymour, Ind.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S.S.S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S.S.S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

Republican National Convention at the Coliseum In Chicago

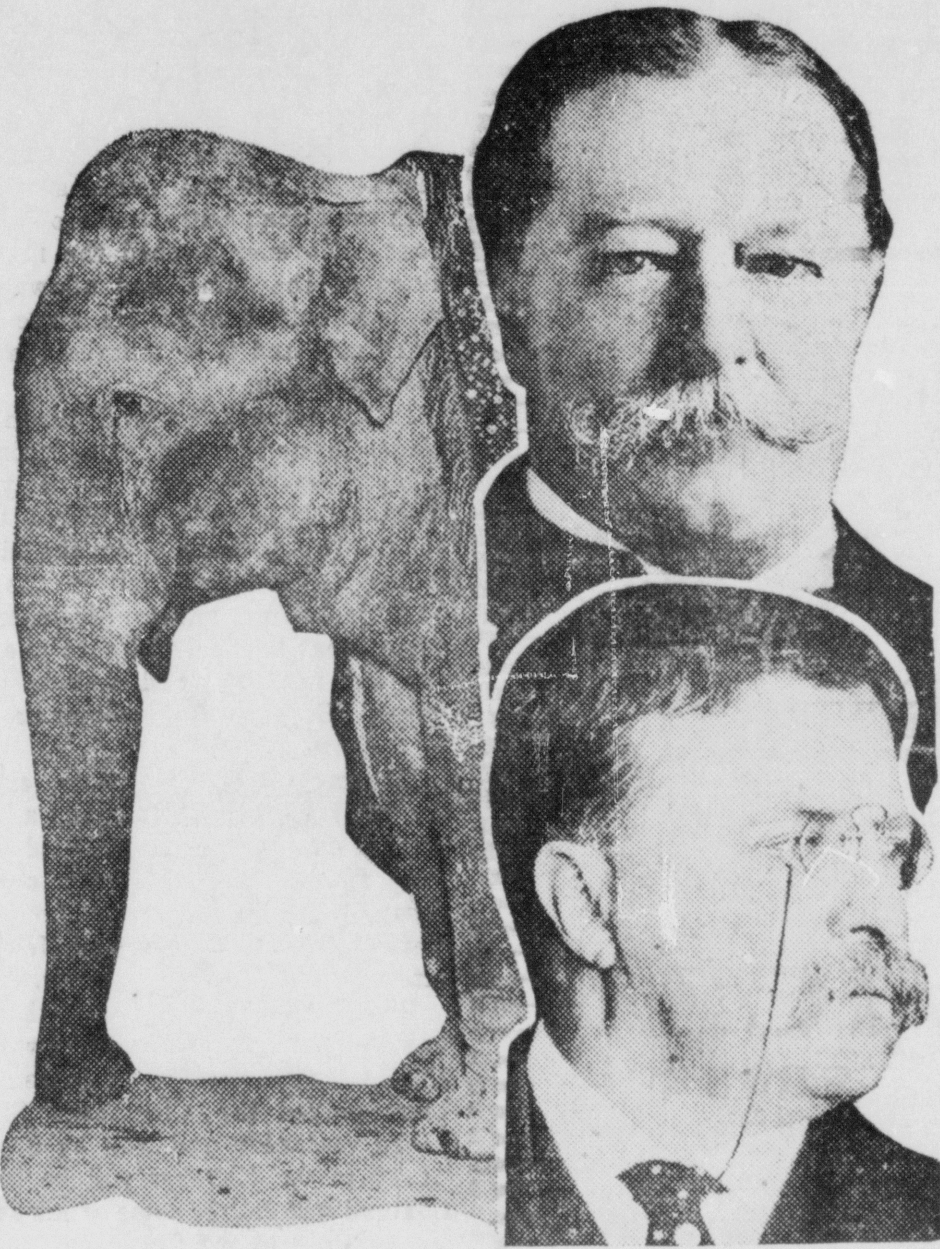

Photo of Taft © by Harris & Ewing. Photo of Roosevelt © by American Press Association.

On June 18 the Delegates Will Meet to Choose Candidates For President and Vice President—It Will Be the Largest Convention Ever Assembled—How the Big Event Will Be Handled.

By JAMES ARTHUR.
THE Republican national convention of 1912 meets on June 18, the one hundredth anniversary of the beginning of the war of 1812. If this is an omen of anything it is that there will be war in that gathering, a thing so probable that it needs no omen. One of the battles of 100 years ago was at Fort Dearborn standing where Chicago now stands, thus lending local emphasis to the foreboding. If further proof is needed that there is to be a fight it is furnished by the fact that William Howard Taft and Theodore Roosevelt are the leading candidates. Robert M. La Follette and Albert Baird Cummins are also candidates and are also something in the fighting line.

The convention hall is Chicago's famous coliseum that has seen so many conventions in the past. It is the successor to the coliseum built for the Democratic convention of 1896, when William Jennings Bryan won the nomination by his "cross of gold" speech. The writer was present on that occasion and still remembers the tingle of that oratorical triumph.

For the coming convention the new coliseum is being remodeled and refurnished. This was all worked out on paper long before the convention, and as soon as the building was turned over to the national committee a force of carpenters began to rush the work. Railings were to be put in place, seats arranged and all the thousand and one details to be looked after throughout the vast hall.

Thousand and One Details.
Another problem has been the decorations. This contract was given separately. The state guidons, festooning of the national colors, display of flags and of portraits all had to be planned carefully and executed quickly.

The printing and giving out of tickets were also a man's job. There are many varieties of these admission cards, as delegates, alternates, national committee, stage, press and visitors in all the various sections of the building must have tickets for each session and each day and for numbered seats. The tickets are under the absolute control of the national committee. Because of the press of visitors the giving out of these pasteboards has to be carefully guarded. The hall seats something more than 11,000.

These represent only the beginning of the details. Elaborate preparations have had to be made for the press. Not only does every important paper in the country send one or more representatives, but the press associations have a large number of men, and there is a small army of telegraph operators, stenographers, messengers and other helpers.

There is also an army of doorkeepers, ushers and sergeants-at-arms. Badges must be supplied, and there are almost as many kinds of these as of tickets. Music must be provided, although this is comparatively simple, since only one official band is stationed in the convention hall. The numerous bands in the streets and hotels come voluntarily or are supplied by various candidates, delegations and marching clubs.

The foregoing covers but a small part of the machinery of the convention. There are many other details, such as doctors and nurses, for possible contingencies. Among these contingencies is not included a free fight, or at least so let us hope. Fighting there will be, but not of the physical variety. Yet there are many accidents that could happen in a convention hall, such as the breaking down of platforms or

seats, fire, panics and the like. Delegates and visitors are liable to be overcome by the heat. All of these contingencies must be provided for. Various concessions, including those for lemonade, fans, flags, canes, buttons, etc., are to be given out. Noise producers are also in demand, although there are always plenty of these in human form. The national committee makes up the temporary roll. This means that it must hear all contests, of which there is an unusually large number this year. Of course the committee's decision is not final since the convention passes on the credentials of its own members. Yet, in fact, the committee's decision will be final in most cases, for the reason that those on the temporary roll will have power to vote as to determining all contests in the convention except those in which the delegates voting are personally concerned. Thus the national committee's action on these contests may determine the actual complexion of the convention, especially if it is close.

Largest Convention Ever Assembled.

The number of delegates in the Republican national convention is 1,076. There has been some confusion on this point owing to the fact that New Mexico claimed 8 delegates, whereas the call apportions her only 6. If she is allowed 8 the total will be swelled to 1,078. In all the territories or dependencies, excepting Hawaii, the number is 2. Hawaii is allowed 6. New York heads the list with 90. Pennsylvania comes next with 76. Illinois is third with 58, Ohio fourth with 48 and Texas fifth with 40. Massachusetts and Missouri have 36 each, Indiana and Michigan 30 each, Georgia and New Jersey 28 each, California, Iowa, Kentucky and Wisconsin 26 each; Alabama, Minnesota, North Carolina, Tennessee and Virginia 24 each; Kansas, Louisiana, Mississippi and Oklahoma 20 each; Arkansas and South Carolina 18 each; Maryland, Nebraska and West Virginia 16 each; Connecticut and Washington 14 each; Colorado, Florida and Maine 12 each; North Dakota, Oregon, Rhode Island and South Dakota 10 each; Idaho, Montana, New Hampshire, Utah and Vermont 8 each; Arizona, Delaware, Hawaii, Nevada, New Mexico and Wyoming 6 each, and Alaska, District of Columbia, Philippine Islands and Porto Rico 2 each. That makes just 1,076—count 'em. The Republican national convention of this year is larger than any ever assembled before. The delegates alone would make up an ordinary sized military regiment. There are as many more alternates, several hundred newspaper men, several hundred more distinguished citizens, convention officials and Mr. Common People, with his numerous family.

Most Americans are now familiar with the scene presented by the average national convention either through having attended at least one such gathering in person or through pictures and descriptions in the press. In their main features these conventions are all alike. There are variations, of course, due to particular causes, but the scene presented to the eye, the course of procedure, the speeches, the balloting, the cheering, the decorations and the other accessories that go to make up these popular party assemblages make one national convention as like another as two peas in a pod.

Color, Perspiration and Enthusiasm.
The writer has attended eight national conventions and has kept fairly close track of others for a matter of twenty-five years. A general description of one will answer for all. They are always sweetly hot. Pack from 10,000 to 20,000 human beings in one building in June or July and it could not be otherwise. The three chief features are color, perspiration and enthusiasm. A great barlike structure, with girders, pillars and every other exposed projection festooned with bunting and flags; seats arranged in a vast amphitheater, sloping up from the pit in which sit the delegates; guidons on which are the names of the states on long poles attached to delegates' chairs along the aisles; beyond the circle of delegates the chairman's platform, banked with distinguished guests; up aloft in some little cubbyhole of a balcony the band which keeps up an incessant playing as the delegates and visitors stream in; the audience divided off into sections by railings; perhaps there is a gallery or two away back on the outer fringes of the great hall; everywhere the national colors, in wreaths, rosettes and garlands, flags of all sizes and suspended at all angles; gigantic portraits of famous party leaders of the past—that is the picture.

After going through the press of the crowds, passing the doorkeepers and threading our way through long mazes to our seats we take in all these details one by one or get their effect in mass. The seats are now rapidly filling. Down in the pit there are a few knots of delegates. Soon there is a salvo of applause as some party leader enters at the head of his delegation. This is redoubled as another familiar figure takes his place. Perhaps it is a senator, a well known governor or a popular congressman. Maybe it is only a state boss.

The hour arrives for opening the session, but still there is no sign of life at the chairman's table. Perhaps he is engaged in some important caucus or conference. The delegates and spectators continue arriving, and the band industriously pounds away at ragtime, marches and national airs. Now the chairman suddenly appears at his place. If it is the opening session he is the chairman of the national committee. His gavel whacks like a distant woodpecker. The hubbub and buzz of conversation gradually ceases. The chairman announces prayer, though we do not hear him, but arise because everybody else does. Possibly we catch some echo of the minister's voice, possibly not. If God doesn't hear him any better than we do the invocation is in vain. Anyway, it is ended, and we are all again seated. Then the secretary reads the call. No body tries to hear this, and the buzz of conversation resumes. Now the temporary organization is announced and the temporary chairman introduced.

At the end of the temporary chairman's speech confusion reigns again. The various delegations are now announcing their members of the committees on credentials, on platform and on permanent organization. This does not interest us, and we use our eyes instead of our ears. Likewise we use our fan, if we are so fortunate as to have one, otherwise our hat or a newspaper folded fan shape. The later sessions vary from the opening one, the excitement gradually mounting. The report of the credentials committee brings a clash of oratory and of voting, the permanent chairman makes another keynote speech, the platform is liberally cheered and adopted after several speeches have been made for and against it, and at last the boards are cleared for action. The hour has come for the nomination of a candidate for president of the United States.

In the Chicago convention the call to order will be made by Victor Rosewater, acting chairman of the national committee since the death of Chairman Hill of Maine. Mr. Rosewater, though a young man, is editor and owner of the Omaha Bee.

As to the other events of that great gathering up to and including the nomination of the Republican candidate for president—well, I am not now working at the trade of political prophecy. However, I will hazard just one prediction—there will be a fight.

Photo by American Press Association.
SENATOR ELIHU ROOT, ADMINISTRATION CANDIDATE FOR TEMPORARY CHAIRMAN.
ed amid cheers. He is usually an orator with a voice of some carrying power. Consequently we can follow him, at least in spots, and join intelligently in the applause that marks the periods. This is supposed to be a keynote speech, profusely interlarded with praise for our party and abuse of the other, and we cheer both indiscriminately.

Coming to the Climax.

At the end of the temporary chairman's speech confusion reigns again. The various delegations are now announcing their members of the committees on credentials, on platform and on permanent organization. This does not interest us, and we use our eyes instead of our ears. Likewise we use our fan, if we are so fortunate as to have one, otherwise our hat or a newspaper folded fan shape. The later sessions vary from the opening one, the excitement gradually mounting. The report of the credentials committee brings a clash of oratory and of voting, the permanent chairman makes another keynote speech, the platform is liberally cheered and adopted after several speeches have been made for and against it, and at last the boards are cleared for action. The hour has come for the nomination of a candidate for president of the United States.

The pay checks for the employees of the B. & O. S-W. came in Saturday and about \$23,000 was distributed among the local employees of the road.

Mrs. Garfield Rapp and son, Earl, of Carlisle are here visiting her mother, Mrs. H. C. Beyer and family. Mrs. Beyer who has been sick for several weeks, is slightly better today.

Miss Grace E. Densford, formerly a teacher at Crothersville and Scottsburg, but who has been teaching in the west for the past two years, recently made an eight-year high school license.

Frank Lemp, trustee of Redding township, will advertise a second time for bids for the erection of the new school building at Woodstock. Five contractors filed bids Saturday, but all were considered too high and were rejected.

County Commissioner John Turmail, Sherman Hall and Matt Fleetwood went to Columbus this morning to hold a conference with the commissioners of Bartholomew county regarding the repair of the county line road.

Ed Champion, who has been employed at Cincinnati for several years spent Sunday with his parents, Mr. Mrs. Elias Champion on Broadway. Mr. Champion will go to Gary in a few days where he has accepted a position.

The officers of the George Kraft corporation who were here for the opening of the local store have returned to their homes. A. L. Baird, inspector, will give some time in investigation of other locations before he returns home. Ed McCarty, assistant general manager, and M. T. Baird, general manager, returned to Covington, Ky.

Fishermen are reporting the best of success today, and quite a number of local people have spent the day along the river banks in spite of the afternoon shower. Orville Bottorff is among those who have reported large catches and in several hours fishing this morning landed fifty-two.

SOCIAL EVENTS.

MARRIED.

TAULMAN-SCHOURICK.
The marriage of Mr. Fred Taulman and Miss Frances Schourick, was solemnized Sunday-morning in the presence of a few immediate relatives and friends at the Baptist parsonage. Rev. F. M. Huckleberry officiated. Mr. Taulman is engaged as a photographer at Indianapolis and his bride is a popular young lady among her large circle of friends in this city. They will reside in Indianapolis, and left Sunday for their future home.

After the ceremony they returned to the bride's home, where a sumptuous dinner was served at the noon hour.

The bride is a daughter of Mr. and Mrs. Louis Scheurick of Oak street, and the groom is a son of Mr. and Mrs. J. B. Taulman also of this city.

WILSON-MILLER

Frances Miller and Miss Mayme Wilson have announced their marriage which took place Tuesday, June 11 at Indianapolis. They will reside at Indianapolis.

Birthday Party.

Miss Verl Mackey entertained a crowd of her friends Saturday evening at her home on west Oak street in honor of her fifteenth birthday. Those present were Misses Bertha and Pauline Meranda, Cecil Sinder, Lizzie Bryant, Bertha England, Frieda and Lenora Kerl, Verl Mackey, Hazel Peacock, Marion Watson, Alice Taskey, Muriel Rottger, Naney Sutherland, Carrie Ward, Harry Fleeharty, Harry and Charles Horning, Enis Taskey, Oscar and Arthur Kastling, Robert Meyers, Maurice Doane, Noble Abell, John and Phil Morton, Cleve Wagner, Albert Mellenkamp, Wilbur Lunte, Eddie Sutherland and Edward Moritz.

An enjoyable evening was spent by all, after which refreshments were served and the guests returned home at a late hour.

Birthday Dinner.

A birthday dinner was given Sunday at the home of Mrs. Elizabeth Alwes in honor of her birthday. Mrs. Kate Kolb and Mrs. Elizabeth Meyer of New Albany came Saturday as a surprise to her and attended the celebration, which was planned by her daughters. Dr. Howard Burkley of Logansport was another out-of-town guest.

Birthday Anniversary.

A dinner party was given at noon today at the home of Henry Barkman on High street in honor of his fifty-eighth birthday anniversary. Covers were laid for the children and the grandchildren and a most delightful time was enjoyed.

In Indianapolis.

Fred Sciarra and family and P. Colabuono and family spent Sunday with their brother-in-law at Indianapolis. They had a pleasant day and returned late Sunday evening.

"BLUES LOSE ONE

Kentucky Colonels Take Game By Score of 6 to 4.

Crothersville lost. That is, the official score gives the "Blues" the little end, but the spectators who saw the game declare that the game was presented to the Louisville boys as the Crothersville team wanted to save themselves for the game scheduled with the Cuban Stars tomorrow afternoon. Kovener pitched the first innings of the game, and allowed the visitors only 3 hits. He struck out eight men and it is believed that the game was won.

In the seventh inning Coleman was placed in the box, and in one inning he allowed two hits, gave one player a base on balls and permitted three scores to be made. In the eighth inning Lagerar was put in the box and finished the game. McOsler did some great batting and sent one ball far out into the field making three bases. Both he and Gardiner brought in a score apiece.

Thee man, who occupied center field for the Louisville team, made a sensational catch when he pulled down a long fly sent into his territory by Swope. The battery for Louisville were McBroom, Weiting and Newkirk, pitchers and Logeson, catcher.

The Blues will play one of the best games of the season tomorrow when they will meet the Cuban Stars. This team played the Cincinnati Shamrocks yesterday and won by a score of 10 to 0. Kovener will be in the box and will deliver some of his swift-twisters to the foreigners.

ALL STARS WON

Take Game Over Chestnut Ridge by Score of 32 to 3.

The Seymour All Stars played a team from Chestnut Ridge Sunday and won in an easy contest by a score of 32 to 3. The game was one sided from the beginning and the spectators say that the local boys played a fast game for amateurs. On the Chestnut Ridge team were several players from Seymour. The battery for Seymour was Rader, pitcher and Fleeharty, catcher and Graessle and Sprague did the pitching for Chestnut Ridge.

Two Baseballs at Once in One Game.

Hugh S. Fullerton tells in the May American Magazine some wonderful stories of freak plays that have won big games. Following is one of the most remarkable stories:

"Perhaps the strangest freak play was one made by Frank McNichols on the Logan Square grounds in Chicago. McNichols, besides owning and managing and playing with the West Ends and representing his district in the Illinois Senate, is a ball player of major league caliber who plays because he loves the game. The Logan Square team, then owned by Jimmy Callahan, now manager of the Chicago White Sox, had persuaded McNichols to play first base against the Gunthers, another strong team, and the score was tied in the ninth inning. The Gunthers had runners on second and third with two out, and a base hit meant probable defeat for the Logans, and loss of the city championship. Matty Fitzgerald, a well-known umpire, was officiating alone from behind the pitchers' slab. His blouse was filled with extra balls and in stooping to sight along the plate as the pitcher wound up, he allowed one of the spare balls to fall to the ground behind him. The batter hit a hard line drive that seemed aimed at the pitcher's ankles. Fitzgerald leaped aside to avoid being hit, the batted ball struck the ball on the ground and the two balls kissed off at right angles. One went straight toward the shortstop, the other toward the second baseman. Each player thought the ball rolling toward him was the one in play and each dashed forward, made clever running scoops at the same instant and threw to first base at the same time. The shortstop threw high and to the left of McNichols, the second baseman, threw low and to his right. McNichols, with his left hand stretched high caught one ball in his mitt and with the other hand he caught the low throw, and Fitzgerald, after scratching his head an instant, called the batter out and refused to allow either of the runs that crossed the plate on the play to be recorded."

Tent Meeting.

A tent meeting is being held on S. Broadway by Evangelist J. H. Bennett and wife and Miss Mann. Meeting every night 7:45 p. m. and will continue over Sunday, June 23rd. On Sunday at 10:30 a. m., 2:30 p. m. and 7:45 p. m.
